AUTHOR Grogran, Jane
TITLE A Nutrition Education Bibliography for Teachers of all Subjects and Grade Levels.
PUB DATE May 77
NOTE 14p.; Parts of document may be marginally legible due to print quality of the original

EDRS PRICE MF-$0.83 HC-$1.67 Plus Postage.
DESCRIPTORS Annotated Bibliographies; *Bibliographic Citations; *Elementary Secondary Education; *Nutrition; *Nutrition Instruction

ABSTRACT

The materials listed here represent a collection on nutrition education resources developed through the Nutrition Education Development Project. The listings include books, periodicals, filmstrips, slides, cassettes, bibliographies, teaching kits, programmed instruction units, curriculum guides, and games in nutrition education. (MM)

****
* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. Nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *
* responsible for the quality of the original document. Reproductions *
* supplied by EDRS are the best that can be made from the original. *

INTRODUCTION

This bibliography has been developed as a cooperative endeavor between the Northeastern Branch Library Media Examination Center and the Nutrition Education Development Project of Luzerne Intermediate Unit 18. The materials listed here are a collection on nutrition education resources developed through the NEDP.

The Nutrition Education Development Project has been funded through an ESEA Title IV C grant; and the Project assists local school districts in incorporating nutrition topics into the existing curriculum. One aspect of the Project continues to be the development and expansion of a resource center to house books, periodicals, filmstrips, slides, cassettes, bibliographies, teaching kits, programmed instruction units, curriculum guides, and games in nutrition education. This collection is housed in the Library Media Examination Center of L.I.U. 18. The collection is available to educators and individuals who are interested in nutrition education or who wish to secure specific information on a topic or topics in nutrition.

Since the resource center continues to expand, the bibliography does not represent the total collection of available materials. The acquisition of materials is on-going; and periodically addenda will be prepared.

If you are interested in beginning a program in nutrition education, you will find the books marked with an asterisk (*) particularly helpful.

An extensive pamphlet file on many current issues in nutrition is also available. The pamphlets are not included in the bibliography, but they are available for your perusal at the L.I.U. 18 office building. For further information about these resources, please contact:

Jane Grogan, Project Director
